Outline

I	Introduction	3
II	Literature Review And Research Overview	4
III	Reason For Choosing The Research Topic	5
IV	Research Objectives	5
V	Research Content	6
VI	Research Methodology	7
VII	Research Target And Score	10

Introduction of this research:

- Task management in companies, especially small and medium-sized enterprises (SMEs), is essential to ensure efficiency and productivity. However, SMEs often require solutions that are low-cost, easy to use, quick to deploy, and do not demand complex programming skills.
- AppSheet is a suitable platform for developing task management applications, especially beneficial for small businesses.

**Thank you very much
for your kind attention!**
